A voice from *Wilimy*:

„We have good localization-near the Dadaj Lake and recreational zone but during last years nothing special happened inside the village-there are no clubs, not many enterprises and active people. Beter situation is in recreational part of Wilimy. We hope to find a new work places in the privat „Aqua Park” which is starting next year !“

What does it mean for our village and what do we have to do?

Strengthen the strengths!

Demography

- *Migration of „summer inhabitants” during holidays (privat summer houses)*

Economy

- *9 tourism enterprises but outside the village*

Social Life

- *From time to time meetings for inhabitants in privat houses*

Reduce the risks!

- *High level of inhabitants in age >45*
- *Small investments as well as eco-farms as a chance for development*
- *Take a positive example from neighboring village (Biesowo) and cooperate with inhabitants of this village in common activities*
